

## COOPERATION OFFER

### GENERAL DESCRIPTION

**Title** Development of products and equipment incorporating optics and illumination

#### Summary

Scandinavia's leading consultant company when it comes to the development of products and equipment incorporating optics and illumination offers expert knowledge to make products innovative, spectacular and less expensive to produce.

#### Description

The company offers expertise in optics and photonics. The company works with classical imaging optics, illumination and optical metrology. Activities are in many different fields, e.g., consumer products, life science, automotive, safety and surveillance, etc. The company is well established in Sweden, but would like to expand its services to other parts of Europe.

#### Advantages and Innovations

The company has a relatively unique combination of technical expertise (>80% of the employees are PhD.s) and deep understanding of product development.

#### Current Stage of Development\*

- |                                                               |                                                                |
